KIM'S COCOA INITIATIVE

OUR STEP FORWARD

Since 2015, we've been investing in real impact through Cocoa Horizons: from the **Cocoa for Schools project** to new initiatives for farmers, communities, and the environment. Starting in 2026, we'll bring all of these efforts together under **Kim's Cocoa Initiative**, a program that channels our sustainability contributions directly to cocoa farmers in West Africa.

Our focus

- **Prospering farmers** - fair incomes and higher yields.
- **Strengthening communities** - education, welfare and safety.
- **Restoring ecosystems** - nature conservation and CO2 reduction.

With 99.99% sustainably certified* cocoa, 95% full traceability, and the ambition to be 100% deforestation-free by 2026, we're building chocolate with a future. *You can read our reports and annual audits here: www.kimchoc.be/sustainability

*Beyond Chocolate rapport

**“Action over words.
Ten years in, we
stand with farmers,
communities,
and nature –
not because
it's trendy, but
because it matters.”**

Partnership & ambition

As we've done over the past decade, we continue to reduce CO2 emissions together with Cocoa Horizons. The sustainability premiums we pay are invested directly with farmers in selected regions. This way, we create tangible impact, track our progress, and shape a future for chocolate that is fair, sustainable, and transparent.
